

REMARKS/ARGUMENTS

The present amendment is being filed as a supplement to the amendment filed in connection with the prosecution of the above identified application on December 10, 2003. Claims 1-22 are pending in this application.

By the present amendment new claims 33 and 34 have been added which are drawn to specific compounds falling within the definition of formula (I)(B) and to pharmaceutical compositions containing said compounds. Each of the newly claimed compounds is supported by an Example on pages 36-40 of the specification. It is believed that the newly added claims fall within the generic claim as amended by the amendment filed on December 10, 2003 and that no new matter has been added.

Respectfully submitted,
